

UNDERSTANDING OUR PART NUMBERS FOR SIGNS & LABELS

Its easy to find the sign you want.

All sign and label products are listed in alphabetical order of the text on the sign. A sign with the word ASBESTOS comes before a sign with the word CORROSIVE. (ie All High Voltage signs are together, so you don't have to search for them).

Our part number system has been designed with the customer in mind to make ordering and understanding our products easy. Each code is made up of 3 pieces of data. The Category, The Design No & **The Size and Material reference which determines the price.**

Our Code D86JS

The Category ie (D) = Danger

The Design No. ie (86) = a unique number per design.

The Size & Material ie (JS) ** Look up this Red Code in pricelist.
 J = The size (100x140).
 S = The Material (Self Adhesive)

NON STOCKED SIZES AVAILABLE SEE PRICING PAGES FOR DETAILS

Where a design in our catalogue does not come in all sizes/ materials, we will make it in any of our standard sizes and materials for 35% more than our standard stock price for that item. (Customised versions of standard designs excluded).
